

## PNEUMATIC TORQUE WRENCH -PNSD SERIES

We have 25 plus years of experience in torque wrench manufacturing. We designed and developed our tools for extreme duty use in a diversity of industries worldwide.

### Features: -

- Design for maximize efficiency
- Wide torque range suits different applications
- Reliable, dependable solution for the installation and removal for heavy duty fasteners
- Advanced star-gearbox design basic on reliable quality - Precision+/-4%, Repeat Precision+/-2%
- Reduced operator strain and injury
- Collectively it will help into increase productivity

*Special reaction arm can be ordered according your operation*

Model	Square Drive	Torque	Speed RPM	Weight in kg	Noise Level	Dimension IN MM			
						A	B	C	D
PNSD13	3/4"	275-1350 Nm	15	3.5	80 dBa	207	70	261	31.5
PNSD20	1"	400-2000 Nm	10	3.9	80 dBa	201	70	261	34.5
PNSD34	1"	700-3400 Nm	4.8	7.0	85 dBa	269	89	272	38.5
PNSD80	1-1/2"	2700-8000 Nm	4.2	12.2	85 dBa	317	93	293	51

\*Max Air consumption is 10-90 psi / Flow 45-55 CFM

Precision+/-4%, Repeat Precision+/-2%

### Standard Accessories:

- Reaction Arm
- Lock Circlip
- Air Hose - 8 ft
- Air Gauge, Filter, Regulator
- Carry Case
- Air-Torque Chart

Part No: **PNSD FRL-1** Operating Manual

Note: Standard Air hose comes with 8ft length, over and above requirement will be charged extra
